

Anna VIZZIELLO

Curriculum vitae

[Last update: November 21st, 2018]

PERSONAL INFORMATION

Scopus Author ID: 25655579800; **ORCID ID:** 0000-0002-6378-141X; **Researcher ID:** H-5893-2012
Date of birth: 30/07/1980 **Nationality:** Italy
URL for web site: <http://tlcrs.unipv.it/~avizziello>

EDUCATION

- **2011: PhD**, Department of Electrical, Computer and Biomedical Engineering, University of Pavia, Italy. Top grade. *Thesis:* “Orthogonal Frequency Division Multiplexing Systems and Applications in Cognitive Radio Networks”. *PhD Supervisor:* Lorenzo Favalli.
- **2007: Qualified Engineer**
- **2007: Master Degree**, Department of Electrical, Computer and Biomedical Engineering, University of Pavia, Italy. Score 109/110. *Thesis:* “Estimation Techniques for time and frequency selective channel in 802.16 Systems”
- **1999: Diploma (Master-level) Degree**, Flute, Conservatory of Music, Matera, Italy. Top grade (10/10).

CURRENT POSITION

- **2014 - At present: Research Assistant** at the Telecommunications & Remote Sensing Laboratory (TLC&RS Lab), under the **Research Grant** from the Department of Electrical, Computer and Biomedical Engineering (Dept. ECBE), UNIPV, obtained after passing a national open competition. The topic is on “New communication algorithms and protocols for N-RFID networks”. In 2014-2016 she was involved as design engineer for a high data rate modem within the collaboration between the university and *SIAE microelettronica company*. For 3 years (2015-2017) she worked as researcher in the national *PRIN GRETA Project* (<http://www.greentags.eu/>) on tags identification in RFID systems.

PREVIOUS POSITIONS and MOBILITY

- **Jun-Sept 2016 and Dec 2011 Visiting Researcher**, ECE Dept., Northeastern University, Massachusetts working on new research directions on communications for implanted sensors.
- **2010 - 2014: Research Assistant** at the TLC&RS Lab, under the **Research Grant** from the Dept. ECBE, University of Pavia, Italy, obtained after passing a national open competition. The topic was “Advanced estimation techniques for radio receivers”.
- **2009-2010 Visiting Researcher**, Broadband Wireless Networking Lab, Georgia Institute of Technology, Georgia under the supervision of Prof. I. F. Akyildiz. The subject was an innovative research on heterogeneous primary users in cognitive radio networks.
- **Aug 2009 and Jul-Aug 2010 Visiting Researcher**, Universitat Politècnica de Catalunya, Spain. The topic of the research was resource management in cognitive radio networks exploiting a novel radio environmental map, in the framework of the European FP7 *FARAMIR Project*.
- **2007-2009 Researcher**, within the EU *PROETEX Project* for long-range transmissions of biomedical data in critical emergency crisis, and within an *Italy-Turkey FIRB Project* for the evaluation and reduction of seismic risk in large infrastructures, EUCENTRE, Italy.

FELLOWSHIPS AND AWARDS

She received awards on her research and teaching activities including one during her mobility period in 2016.

- **2018:** Included in 2018 list of “**N2Women: Rising Stars in Computer Networking and Communications**” for outstanding and impactful contributions in the area of networking/communications - 10 women selected from around the world (<http://n2women.comsoc.org/>), supported by IEEE Communication Society.
- **2018: Erasmus + Grant** for teaching mobility at UPC Spain after an open competition, University of Pavia.
- **2016: Outstanding Research Visitor** at GENESYS Laboratory, College of Engineering, Northeastern University, Boston (academic year 2015-2016).
- **1999 - 2004:** 5 years **Student Scholarship** according to a yearly-based merit ranking, University of Pavia, Italy.

ACTIVITIES FOR THE EUROPEAN COMMISSION AND OTHER COUNTRIES

- **2017 Proposal Evaluator**, European MANUNET call (<https://www.manUNET.net/>), Finpiemonte, Italy.

- 2016-2017 **Reviewer Panel member** and **Evaluator** for H2020 ICT call (Topics ICT-07-2017 and ICT-08-2017 (“5G PPP Phase 2”), Research Executive Agency (European Commission), Belgium
- 2013-2015 **Evaluator** for FET calls reviewing around 4 proposals per year, REA (EC), Belgium
- 2014 **Evaluator** for [Czech-Norwegian research programme](#), Ministry of Education, Czech Republic

EDITORIAL AND REVIEWING ACTIVITIES

- 2018-At present **Associate Editor** on IET Electronics Letters (IF=1.232).
- 2018-At present **Executive Editor** on Transactions on Emerging Telecommunications Technologies (IF=1.606).
- 2017-2018 **Guest Editor** for the Special Issue “Internet of Wearable and Implantable Medical Things: Theory and Applications” – Sensors Journal (IF=2.475).
- 2012-At present Often invited as **TPC member** for international conferences (more than thirty), such as IEEE ICC 2018, IEEE GLOBECOM 2017, IEEE VTC Spring 2017, IEEE INFOCOM 2014, IEEE ICC 2013.
- 2008 – At present Regularly involved as **Reviewer** a dozen time per year for international peer-reviewed journals and international conferences, including IEEE Transaction on Signal processing, IEEE Transaction on Vehicular Technology, IEEE Communications Letters, IEEE GLOBECOM, IEEE ICC, IEEE INFOCOM, IEEE VTC.

FUNDING ID

- 2013-2016. Responsible for the technical work on transmission techniques and tags identification within the National Project **GRETA** - GREen TAGs and sensors with ultrawideband identification and localization capabilities funded by MIUR (prot. 2010WHY5PR, PRIN 2010/11). 5 partners (academia).
- 2006-2010. Responsible for the work on data transmission of the European Project **PROETEX** - Protection e-Textiles: MicroNanoStructured fibre systems for emergency-disaster wear, funded by the European Community (Project ID: 026987, FP6-IST). 23 partners (academia and industry).
- 2007-2009. Involved in the technical work of the Project **FIRB Italy-Turkey** - Estimate and reduction of seismic risk of large infrastructures.

INSTITUTIONAL RESPONSIBILITIES

- 2013-At present: **Member of the IEEE Technical Committee** on Green Communications & Computing.
- 2011-At present **Funding member and treasurer** elected of GAP11, Post Doc Fellows Association, University of Pavia, Italy.
- 2013 – 2017 **Post Doc delegate** elected, Department member, University of Pavia, Dept. ECBE, Italy.

ORGANISATION OF SCIENTIFIC MEETINGS

- 2018: **Member of the organizing committee** of the National *Telecommunications and Information Theory Group (GTTI) 2019* for one hundred of participants, Italy.
- 2012- At present: Often involved as **Technical Program Committee (TPC) member** of several international conferences (more than thirty), such as IEEE GLOBECOM 2017, IEE ICC 2017, IEEE INFOCOM 2015.
- 2011 – At present: Organisation of several **seminars and research meetings** involving international speakers.

Seminars include:

1) D. Gutierrez (Samsung Electronics R&D Institute UK), “5G Architecture and Network Slicing: A View from 5GPPP and the 5G-MoNArch Project”, February 9, 2018, University of Pavia (co-organizer, audience: twenty PhD Students, Post Doc and Professors);

2) K. Chowdhury (Northeastern University, USA), “Intra-body sensors and networks”, December, 20, 2016, University of Pavia, Italy. (co-organizer, audience: thirty Master and PhD Students, Post Doc and Professors);

3) A. Trogolo (Telecom Italia), “An overview on Software Defined Radio and Cognitive Radio” Pavia, 17 May, 17, 2012, University of Pavia, Italy. (co-organizer, audience: thirty Master and PhD Students, Post Doc and Professors);

4) M. Kuran (Abdullah Gul University, Turkey), “Nanonetworks and Molecular Communication”, October, 17, 2011, University of Pavia. (co-organizer, audience: forty PhD Students, Post Doc and Professors).

Research meetings include:

1) “Galvanic coupling intra-body network for medical applications”, involving complementary experts: E. D’Angelo (physiologist), G. Magenes (biomedical engineer), K. Chowdhury (intra-body sensor network expert). June, 19, 2017, University of Pavia (speaker and organizer);

2) “Intra-body network for nervous system diseases exploiting galvanic coupling technology”, involving medical doctors specialized in the nervous system: A. Nardone, C. Pavese, B. Aiachini, G. Fizzotti, June, 26, 2018, Neurorehabilitation and Spinal Units, Scientific Institute for Research, Hospitalisation and Health Care “Maugeri” of Pavia. (speaker and organizer).

SUPERVISION OF GRADUATE STUDENTS

- 2013 - *At present*: Co-advisor of 5 PhD Students, TLC & RS Laboratory, Dept. ECBE, University of Pavia.
- 2012 – *At present*: Co-advisor of 3 Master Students, including a Master student within an ERASMUS Traineeship at University of Cambridge, because of her international collaboration with Prof. O. B. Akan.

TEACHING ACTIVITIES

- April 2018: Lecturer on Wireless Networks of Sensors and Implants (8 hours), Universidad Politècnica de Catalunya, Spain, within the courses “Communication Networks” and “Short Range Communications” for sixty master students.
- 2008-2017: Lecturer on Intrabody Networks, Cognitive Radio Networks, OFDM technique (30 hrs), University of Pavia, Italy within courses such as “Digital communications”, “Telecommunication systems” for classes of about fifty undergraduate and master students, and Seminars for PhD students.
- July 2013: Lecturer on Cognitive Network, IRIS Summer School on Cellular Tech., Greece, 30 Master students.

MAJOR COLLABORATIONS

She has relevant international collaborations and a strong cooperation networks at the EU (Spain, UK, Turkey) and international (USA) level. The latest collaborations include several joint papers of which she is often the principal author, notably 4 joint publications in which she is the first authors with Ian F. Akyildiz, as well as projects, proposals preparation, and ongoing research works. In what follows the most relevant:

- 1) Ian F. Akyildiz, Cognitive Radio Network, Broadband Wireless Networking Lab, Georgia Tech, US;
- 2) Kaushik Chowdhury, Intrabody Network and 5G systems, Electrical and Computer Engineering Department, Northeastern University, Massachusetts,
- 3) Ioannis Isaias, Intrabody sensor network for Nervous System Diseases, Department of Neurology, University Hospital Würzburg and JMU Würzburg ,
- 4) Ozgur Akan, Intrabody Network and Dynamic Spectrum Access Network, Electrical Engineering Division Department of Engineering, University of Cambridge, UK;
- 5) Eduard Alarcon, Intrabody Network, NaNoNetworking Center in Catalonia (N3Cat) at Universitat Politècnica de Catalunya (UPC), Spain;
- 6) Antonio Nardone, Intrabody sensor network for Nervous System Diseases, Neurorehabilitation and Spinal Units, Scientific Institute for Research, Hospitalisation and Health Care “Maugeri” of Pavia;
- 7) Roberta Borra, Design of a high data rate modem, company “SIAE microelettronica”, Italy.

RESEARCH HIGHLIGHTS

- **Cognitive radio and sensor network.** She explored the case of *heterogeneous primary users* in cognitive radio networks, going beyond the state of the art that was considering the primary users as a single abstract generalization of users with higher priority, and also included a *radio environment map*. She cooperated on these topics with research groups at GaTech and UPC, leading to 5 joint scientific publications of which she is the principal author. In the area of wireless sensor networks she published 5 papers, where she applied compressive sensing techniques and coding schemes for energy efficient identification and transmission solutions.
- **Smart social architecture.** She started a new research line combining the flexibility of cognitive radio in conjunction with the social network paradigm to develop a “*green*” *architecture*, which is a novel research perspective in the field. On this topic she has conducted independent research by leading a team and publishing papers only with collaborators external to her affiliation laboratory.
- **MmWave 5G systems.** She is focusing on the challenging subject of multi-user beamforming and combining in massive multiple input multiple output (MIMO), publishing a paper on the topic.
- **Intra-body network.** She got passionate to telecommunication applied to biomedical field, and in the last three years she started to build a network with experts in nano-networking, biomedical engineering, and medicine with particular focus on nervous system, in Pavia and Europe (cf. CV – Major collaborations), bridging the gap between communication engineering and medicine. She is working on a *beamforming approach inside the body*, publishing 2 papers on the topic, and artificial *neural spike communication*, a ground-breaking research approach exploiting ICT competences for nervous injuries.

CAREER BREAKS: In 2017 her son was born (Maternity leave from Aug. 12, 2017 to Jan. 21, 2018).

EARLY ACHIEVEMENTS TRACK-RECORD

She has published her research outcomes in several scientific **peer-reviewed journals** and **international conferences**, including the main journals with high impact factor in the field (up to 4.432), such as IEEE Access, IEEE Transaction on Vehicular Technology, IEEE Communications Letters, IEEE Sensors Journal, Springer Journal of Wireless Networks, and the main conferences with acceptance rate around 20%, such as IEEE INFOCOM, IEEE GLOBECOM, IEEE ICC, among the others.

Her publications include but are not limited to *intra-body network* (2 papers); *signal processing transmission techniques* (14 papers); *sensor network and RFID systems* (5 papers); *system architecture* (5 papers).

The full list of publications is reported below (cf. 4. Publications).

1. Invited presentations:

She has been invited to deliver presentations in international peer-reviewed conferences and advanced schools, presenting her papers in around twenty international conferences, such as Crowncom 2016, EURASIP RFID 2015 Workshop, IEEE ICC 2013, IEEE GLOBECOM 2011, IEEE GLOBECOM 2010.

Besides regular conference papers, papers invited from the organizing committee of the international conferences are:

- **A. Vizziello** and L. Favalli: "Smart Distributed System Architecture for Green Communications", 27th IEEE International Conference on Advanced Information Networking and Applications, (invited paper) Barcelona, Spain, March 25-28, 2013.
- **A. Vizziello**, and J. Perez-Romero: "System Architecture in Cognitive Radio Networks using a Radio Environment Map", in Proc. of the 4th International Conference on Cognitive Radio and Advanced Spectrum Management, CogART 2011, (invited paper), Barcelona, Spain, 26-29 Oct. 2011.

The invited presentations in international advanced schools in telecommunication engineering are:

- **A. Vizziello**: "Wireless Networks of Sensors and Implants" within the international courses "Communication Networks" and "Short Range Communications", UPC, Barcelona, Spain, April 9-13, 2018.
- **A. Vizziello**: "Intrabody Sensor Networks", Centre for Health Technologies, Pavia, Italy, October 13, 2016.
- **A. Vizziello**: "Issues in Cognitive Networks", IRIS Summer School on Cellular Tech., Nafpaktos, Greece, July 11-13, 2013.

2. Academy memberships

- 2015 - At present National Inter-University Consortium for Telecommunications (CNIT) Member;
- 2013 - At present *IEEE Communications Society Member*;
- 2012 - At present *IEEE Women in Engineering Member*;
- 2011 - At present *IEEE Technical Committee on Green Communications and Computing (TCGCC) Member*;
- 2010 - At present *National Telecommunications and Information Theory Group (GTTI) Member*;
- 2008 - At present *IEEE Member*.

3. Organization in International Conferences and Review

- She is **member of the organizing committee** of the National Telecommunications and Information Theory Group (GTTI) 2019 for one hundred of participants, Italy.
- She has served as **Session Chair** at two Sessions at the international conference IEEE ICC 2013, Hungary, on "Spectrum Access and Management" and "Cognitive Radio and Networks Poster" and IEEE WIMOB 2008 on "Orthogonal Frequency Division Multiplexing (OFDM)", France, for large audience.
- She often serves as **Technical Program Committee (TPC)** member of several international conferences: IEEE ICC 2019, IEEE ICC 2018, IEEE GLOBECOM 2017, IEE ICC 2017, IEEE VTC Spring'17, IEEE CORAL 2017, IEEE GLOBECOM 2016, IEEE ICC 2016, IEEE CORAL 2016, WD 2016, CROWNCOM 2016, IEEE INFOCOM'15, ACM PE-WASUN 2015, IEEE CORAL'15, IEEE VTC Fall'15, IEEE ICC'15, IEEE VTC Spring'15, IEEE ICC'15 MIMO CR Workshop, IEEE GLOBECOM'14, IEEE INFOCOM'14, IEEE ICC'14, IEEE INCOS'14, ACM PE-WASUN '14, IEEE GLOBECOM '13, IEEE ICC '13, IEEE GreenComm 2013, ACM PE-WASUN '13, IEEE CORAL '13 and IEEE GLOBECOM '12.
- She has been **speaker** in around twenty conferences, such as Crowncom 2016, IEEE ICC 2013, IEEE AINA 2013, IEEE GLOBECOM 2011, IEEE GLOBECOM 2010, IEEE WIMOB 2008, IEEE ISSSTA 2008.
- She serves as a **Technical Reviewer** for peer-reviewed international Journals and conferences a dozen time per year, such as IEEE Transaction on Signal processing, IEEE Transaction on Vehicular Technology, IEEE Transaction on Computer, IEEE Communications Letters, IEEE Vehicular Technology Magazine,

Mathematical Computer Modelling Journal (Elsevier), EURASIP Journal on Wireless Communications and Networking, Ad Hoc Networks Journal (Elsevier), Computer Network (Elsevier), High Speed Network Journal; IEEE GLOBECOM 2017, IEEE ICC 2016, IEEE INFOCOM'15., IEEE ICC 2014, IEEE INCOS 2014, IEEE ICT 2014, IEEE GLOBECOM 2013, ICC 2013, PIMRC 2013, GreenComm 2013, GLOBECOM 2012, GLOBECOM 2011, GLOBECOM 2010, IEEE ISSSTA 2008.

4. Publications

International peer-reviewed journals:

- S. Banou, M. Swaminathan, G. R. Muns, D. Duong, F. Kulsoom, P. Savazzi, **A. Vizziello** and K. R. Chowdhury, "Beamforming Galvanic Coupling Signals for IoMT Implant-to-Relay Communication," IEEE Sensors Journal, accepted, 2018. (IF=2.617)
- **A. Vizziello**, P. Savazzi and K. R. Chowdhury, "A Kalman Based Hybrid Precoding for Multi-User Millimeter Wave MIMO Systems," in IEEE Access, vol. 6, pp. 55712-55722, 2018. (IF= 3.557)
- Goldoni E., Prando L., **Vizziello A.**, Savazzi P., P. Gamba, "Experimental data set analysis of RSSI-based indoor and outdoor localization in LoRa networks," Internet Technology Letters 2018;e75. <https://doi.org/10.1002/itl2.75>
- F. Kulsoom, **A. Vizziello**, R. Borra, P. Savazzi, "Reduced complexity Kalman filtering for phase recovery in XPIC systems," Physical Communication, Volume 29, 2018, Pages 112-119, ISSN 1874-4907. (IF=1.522)
- P. Savazzi, **A. Vizziello**, "A Novel Physical Layer Scheme Based on Superposition Codes," EURASIP Journal on Wireless Communications and Networking, issn: 1687-1499, doi: 10.1186/s13638-017-0927-y, 2017. (IF=2.407)
- E. Goldoni, P. Savazzi, **A. Vizziello**, "A Novel Channel Coding Scheme for RFID Generation-2 Systems," Electronics 2017, 6(1), 4; doi:10.3390/electronics6010004, 2017 (IF=2.110)
